

# SPINpos iPad POS

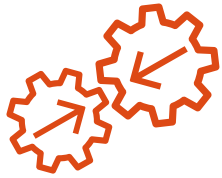

Are you looking for an easy to use POS system for your bakery, shop, car wash and fuel station? The certified SPINpos iPad POS by Extendas is your ticket to a future proof solution. All transactions on any location can be handled and thanks to the possibilities of the connected cloud platform you are able to get more out of your business.

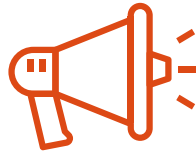

FOR FUEL STATION, SHOP,  
BAKERY AND CAR WASH

# EXTENDAS

Connect directly to all kinds of software and / or hardware from third parties and suppliers in the field of (non) food.

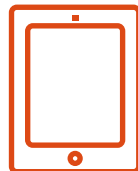

Determine customer promotions based on purchase behavior at the pump and in the shop, get to know your customer again and make every visit fun.

Receive real-time information on all transactions within a location.

No more financial surprises afterwards, thanks to the SaaS (Software as a Service) and HaaS (Hardware as a Service) model. A fixed fee per month for the POS and service.

High level of usability and safety thanks to the proven Apple technology.

At this point, the POS system already contains the most advanced technical functionalities. Also in the near future Extendas will provide customers with the latest technologies and applications.

## SPIN cloud platform

This online platform is the central hub where all data flows come together. It's also the place where all connections to and from fuel station, shop, bakery and car wash devices (pumps, tank measurement systems, price signs, etc.), the software systems (HOS, BOS, POS, webshops, loyalty, etc.) and the market are facilitated.

Other online functionalities:

- Fuel card management system
- Loyalty and marketing environment
- Electronic billing system
- Various connections with e.g. HOS and BOS systems (including FuelOffice by Extendas)
- Omni channel and webshop management, facilitates sales to customers outside your forecourt or location

For the installation, service and support on the SPINpos we work together with our partner Mokobouw. A household name with a nationwide installation and service network.
